

	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-09:00	Arrival	Recrystallization in materials - part 2 (B. Bacroix, M. Montagnat, A. Tommasi)	Characterization by XRD (C Le Bourlot)	Orientations / microtextures (R. Quey)	Modelling in mean-field (J. Favre, C. Poletti)
09:00-09:30					
09:30-10:00					
10:00-10:30	Introduction (10h20-)	Break			
10:30-11:00	Recrystallization in materials - part 1 (B. Bacroix, M. Montagnat, A. Tommasi)	Recrystallization in materials - part 2 (B. Bacroix, M. Montagnat, A. Tommasi)	Break	Break	Break
11:00-11:30			Recrystallization in steels (J. Delacroix)	Recrystallization in Zr (A. Gaillac)	Case study
11:30-12:00					
12:00-12:30					Closing + feedback
12:00-13:00	Lunch				
13:00-13:30					
13:30-14:00					
14:00-14:30					
14:30-15:00					
15:00-15:30					
15:30-16:00	Break			Break	
16:00-16:30	Case study	Break			
16:30-17:00		Case study		Case study	
17:00-17:30					
17:30-18:00		Presentations by participants (talks / posters)			
18:00-18:30	Organization				

Each course is made of 50% presentation and 50% discussion.
