International Conference

on

Residual Stresses

ICRS-11

27th to 30th March 2022

organised by

in association with

at

Nancy - France
Centre Prouvé

Conference chairs

Sabine Denis
Guillaume Geandier

ICRS-11 - International Conference on Residual Stresses

The 11th International Conference on Residual Stresses is intended as a continuation of the successful series initiated in Garmisch-Partenkirchen (Germany, 1986) and continued in Nancy (France, 1988), Tokushima (Japan, 1991), Baltimore (USA, 1994), Linköping (Sweden, 1997), Oxford (UK, 2000), Xi'an (China, 2004), Denver (USA, 2008), Garmisch-Partenkirchen (Germany, 2012) and Sydney (Australia, 2016).

The conference provides a key forum for scientists, students, and engineers interested in the prediction, evaluation, control, and application of residual stresses.

Equal emphasis is given to the measurement, modelling, and utilization of residual stress/strain data. Both the scientific and engineering aspects of these topics, such as the influence of residual stress fields on distortion, material response to loading, damage initiation and propagation, component performance, life and failure, will be addressed.

Special attention is paid to method development and burning issues of great current interest, as, for example, stresses in nanosized systems, stress analysis using synchrotron radiation, etc.

Call for contributions

Participants are invited to submit an abstract using the format described on the website:

<https://sf2m.fr/events/icrs-11/>

Contributions can be oral or posters. It is planned to publish papers of all accepted contributions in the form of Conference proceedings.

Registration fees

Attendance fee	700 €
SF2M, RNM or FEMS members	650 €
Early birds (until December 15 th)	550 €
Early Birds – SF2M, RNM or FEMS members	500 €
Students	350 €
Early birds – Students	300 €

Registration fees include access to sessions, lunch, coffee breaks, gala dinner and conference proceedings. Registrations are made online on the conference website.

Accommodation

Accommodation costs are the responsibility of the attendees. A partnership with the Métropole du Grand Nancy allows us to offer you reservations at preferential rates. For more details, visit:

<https://www.nancy-tourisme.fr/en/>

Conference Location

Conference will take place entirely at the Congress Centre Prouvé located in the city center, a 1-minute walk from the Nancy TGV station and the public transport platform.
